1. Symmetric image normalization (SyN) is a type of nonlinear registration

   1 / 1 point

   ✓ Correct

2. Symmetric image normalization (SyN) in ANTsR will not perform the affine registration before the nonlinear registration; so it is important to do this first.

   1 / 1 point

   ✓ Correct

3. Which registration types can be passed to the ants_regwrite wrapper through the typeofTransform argument?

   1 / 1 point

   ✓ Correct

4. Why do we register the T1-w volume to the template instead of the FLAIR volume?

   1 / 1 point

   ✓ Correct

5. Non-linear registration should put the T1-w volume and the ROI into alignment with the template image

   1 / 1 point

   ✓ Correct
